

LEARNING SPANISH WITH RESULTS

If you are on the hunt for the best method of learning a new language for your child...this is where the Spanish for the Future comes in! Señora Vivian is a native Spanish speaker with 18 years of Montessori experience and eager to share a new linguistic experience.

Your child will have the option to enjoy two methods of learning: traditional in-class environment or the modern and convenient way of online learning where the child will connect with the teacher through Zoom and achieve their language goal. Classes incorporate fun and exciting ways to learn, including games, music, books and art in order to practice listening and comprehension skills.

As one of the most used languages in the world and the official language of 21 countries, Spanish is the future!

Are you ready to let your child step into the magic of learning a new language? Spanish for the Future is here and happy to be part of their achievements and language goals!!

Even though our digital classes are looking a little bit different than before, we've been thrilled by the flexibility of our Spanish classes, with the kids, and parents as we tackle this new reality together. Watching the kids' faces light up on zoom reminds us that learning a foreign language is so much more than the songs. Our students are getting SO much out of our classes, whether they are in-person or through a screen. Right now, that is clearer than ever!

**All grades: Custom, private, semi-private, individual, or group classes.
We offer daytime and after-school classes at your location indoor and outdoor.
Now we are offering ONLINE CLASSES though Zoom**

This “full immersion” Spanish curriculum is designed to open new horizons through language based on a warm environment, where the child will learn to appreciate and understand other places, cultures, and people.
